I am a practical, hard- working student who enjoys a range of subjects. I'm really enthusiastic about all things mechanical and take every opportunity to expand my understanding and knowledge. I am keen to be accepted onto the Apprenticeship programme and feel positive that this opportunity would allow me to work and study effectively and develop my skills in an exciting and hands-on way.

Education

Kings Oak Academy 2013- present

Hayesbrook School 2011-2013

Slade Primary School 2004-2011

BoomSatsuma 2016-2018

My GCSE qualifications

Maths: C Science: D

Sports Studies: Level 2 Pass

Religious Studies: D English Language: D

Experiences of Work

June 2015 – Kingswood Autos. This was work experience organised through the school for one week, during this time I assisted with MOT testing, helped to remove an engine, changed tires, changed spark plugs and any other jobs that they required me to do. I really enjoyed this experience and it has encouraged me to make this my career. I was invited back to do a further weeks work experience in the summer holidays which I took up to gain further experience. Another form of experience that I have had is that I worked with a group called FamFit which is an activity based around family and getting fit. I filmed for FamFit to promote their organisation and I made a film for them to advertise the organisation and I worked with them from February to april in 2017.

Interests

I am a keen sportsman I love to play football, basketball and cricket, but now only for my pleasure. My other interests gaming and have my own YouTube channel that I upload videos of the games for others to watch and blogging videos too.
